

Four Oaks computer screens

We can offer exhibitors the following deals for 42in plasma screens, similar 50in screens, and 50in HD screens. These all include a wheeled floor-stand or a table-top stand, optional loud-speakers and all cables. The screens can also be fixed to a sufficiently robust wall. We can also offer lap-tops or DVD players to connect to these, and if required a shelf to hold this below the main screen.

Also available as in the photo are 23in touch-screens with built in computer and DVD/BluRay player with wireless keyboard and mouse. Other screens and equipment are also available – we are happy to discuss your requirements or to supply more details on these items.

With all these, delivery and setup is included which would be on Monday, and removal at the end of the show on Weds. Prices are in Pounds sterling and exclude VAT. Insurance is offered at an additional 10%.
